✉ jhavar@uni-potsdam.de ◇  jhavarji ◇  sahiljhavar ◇  sahiljhavar.in

## EDUCATION

---

### Universität Potsdam

Master of Science in Astrophysics  
Grade\*: 1.7 (gut/good)

October 2021 - Present  
Potsdam, Germany

#### Coursework:

- Gravitational Wave Astrophysics
- General Relativity
- Multi-messenger astronomy
- Computational Astrophysics
- Bayesian Statistics<sup>†</sup>
- Statistics<sup>†</sup>

### Christ (Deemed to be University)

Bachelor of Science (Physics, Maths and Electronics)  
GPA: 3.68/4.0

July 2018 - June 2021  
Bengaluru, India

**Final Year Project:** Gesture Controlled System based on Raspberry Pi Pico  *Report*

## RESEARCH EXPERIENCE

---

### Theoretical Astrophysics Group, Universität Potsdam

Master's Thesis

March 2023 - Present  
Potsdam, Germany

Master's thesis student under **Prof. Dr. Tim Dietrich**.

- Working on Bayesian techniques for Multi Messenger Astronomy using *NMMA* .
- Characterizing the non stationary systematic uncertainties that arise in the modeling of electromagnetic counterparts of multi-messenger source (merged PR )
- Using parallel computing techniques such as MPI and multi-processing to make inferences and analysis faster.
- Resulted in one first author paper accepted in Physical Review D and one co-authored paper in MNRAS

### Universität Potsdam & Astronomical Institute of CAS

Participant

August 2022 - September 2022  
Prague, Czech Republic

- Utilized the Perek 2m telescope at the Ondřejov Observatory to acquire stellar spectra
- Performed data reduction and analysis using IRAF Python for data visualization

### IUCAA & NCRA-TIFR

Winter Student

December 2020 - January 2021  
Pune, India

**Radio Astronomy Winter School 2020:** Learned basics of radio astronomy, from theory to instrumentation and computational aspects. Workshop enabled me to work on few physical experiments and on GMRT and ORT data of Vela pulsar.

 *Detailed reports can be found here*

### Krittika, IIT Bombay

Summer Project Intern

May 2020 - August 2020  
Mumbai, India

Developed a Python package to analyse various types of binary star system.

---

\*See here on how to interpret German grade: Welche Form der Benotung wird an der Uni Potsdam verwendet?

<sup>†</sup>University coursework without credits

## WORK EXPERIENCE

---

### Deutsches GeoForschungsZentrum Potsdam (GFZ)

Student Assistant

July 2024 - Present

Potsdam, Germany

Student Software Developer in the Section 1.5 - Space Physics and Space Weather

- Implemented an ETL pipeline to process real-time data from NASA, JAXA spacecraft websites, including writing new code and developing the testing framework from scratch.
- Deployed and maintaining quasi-real-time space-physics based machine learning model
- Translated data assimilation algorithms from MATLAB to Python, enhancing efficiency, readability and integration with modern software practices.
- Collaborated with team members to ensure seamless implementation and testing of the translated Python-based workflows.
- Migrated legacy FORTRAN geomagnetic models to Python

### Leibniz-Institut für Astrophysik Potsdam (AIP)

Student Assistant

December 2022 - March 2024

Potsdam, Germany

Student Assistant in the Project Management team for building (integration, installation and maintenance) the 4-metre Multi-Object Spectroscopic Telescope *4MOST*.

- Implemented *4MOST* commissioning procedures during 3 week coding campaign (November 2023)
- Utilized technical skills in troubleshooting and problem-solving within the specialized environment of an astronomical integration hall.
- Proactively managed procurement activities, liaising with vendors to procure essential large-scale items for the integration hall.

## PUBLICATIONS

---

1. **Sahil Jhavar**, Thibaut Wouters, Peter T. H. Pang, et al. “Data-driven approach for modeling the temporal and spectral evolution of kilonova systematic uncertainties”. In: *Phys. Rev. D* 111 (4 2025), p. 043046. DOI: 10.1103/PhysRevD.111.043046. URL: <https://link.aps.org/doi/10.1103/PhysRevD.111.043046>.
2. Malina Desai, Deep Chatterjee, **Sahil Jhavar**, et al. “Kilonova Light Curve Parameter Estimation Using Likelihood-Free Inference”. In: (Aug. 2024). Submitted to MNRAS. arXiv: 2408.06947 [astro-ph.IM].
3. T. Hussenot-Desenonges, T. Wouters, N. Guessoum, et al. *Multi-band analyses of the bright GRB 230812B and the associated SN2023pel*. 2023. arXiv: 2310.14310 [astro-ph.HE].

## OBSERVING EXPERIENCE

---

### Perek 2m Telescope

Assisted with 7 nights (Ondřejov, Czech Republic)

### OST 0.5m Telescope

Assisted with 2 nights (Potsdam, Germany)

## TECHNICAL PROJECTS

---

### NMMA

contributor and maintainer

A Pythonic library for probing nuclear physics and cosmology with multimessenger analysis.

### Gstrain

Interactive Gravitational Wave strain viewer using Streamlit & Plotly. Check it out here 

### GPInter

Gaussian Processes from scratch with interactive visualization.

## uptime

A Github Action and Pages based uptime monitor in Python.

## directory-cleaner

Python script to sort files into subdirectories by file type.

## git-overleaf-sync

Python script to sync Overleaf projects with Git based repository services for free version control.

## SKILLS

---

<b>Technical Languages</b>	Python, C/C++, $\text{\LaTeX}$ , MATLAB, SQL
<b>Technical Skills</b>	Git (-Lab and -Hub), Unix based OS and Windows, Bayesian Inference, Data analysis and visualisation
<b>Packages and tools</b>	NumPy, SciPy, Pandas, Matplotlib, Astropy, Bilby, Seaborn, Sphinx, TensorFlow, scikit-learn, JAX, PyTorch, CI/CD, Parallel computing

## OUTREACH AND COMMUNITY ENGAGEMENT

---

<b>Let's Talk Astronomy, Christ</b>	<i>November 2019 - January 2021</i>
<i>Student coordinator</i>	<i>Bengaluru, India</i>

Acted as a liaison between students and faculty. Conducted 15+ talks.

<b>LIGO-India, Vigyan Samagam (DAE-DST-NCSM, G.O.I)</b>	<i>September and December 2019</i>
<i>Scientific Communicator</i>	<i>Bengaluru and Kolkata, India</i>

Successfully played the role of science communicator by explaining GW Science and GW Exhibits to an audience of all ages. Catered to nearly 500 visitors.

<b>Astronomical Society of India</b>	<i>February 2019</i>
<i>Volunteer</i>	<i>Bengaluru, India</i>

Worked with hospitality committee to cater to all needs of guests and help in the smooth running of the conference during the 37<sup>th</sup> Annual Meeting of ASI at Christ (Deemed to be University).

## CO-CURRICULAR ACTIVITIES

---

### POSITIONS OF RESPONSIBILITY

**Student Coordinator of Mathematics Association, Christ**

**Student Coordinator of Sequence 2021, Christ**

**Student Coordinator of Event Horizon 2021, Christ**

**Head of Events Core Committee for Sequence 2020, Christ**

## PRIZES, AWARDS AND HONORS

---

- 2024** Fully funded visiting fellowship by European Union's Horizon 2020 Programme under the AHEAD 2020 hosted by Dr. Mattia Bulla at University of Ferrara, Italy
- 2024** Fellowship of €500 by ESA for dotAstronomy 2024, ESAC Madrid, Spain
- 2023** Scholarship of ₹35,000 by Badrilal Soni Maheshwari Shiksha Sahyog Kendra, India
- 2021** Awarded co-curricular activities based scholarship from Christ (Deemed to be University)
- 2021** Won numerous inter and intra collegiate events, and successfully lead a team of players resulting in various rolling trophies for the department
- 2020** Gold honor in International Astronomy and Astrophysics Competition (IAAC), secured 38/40 and placed in the top 1% worldwide
