EDUCATION

Universität Potsdam

October 2021 - June 2025 Potsdam, Germany

July 2018 - June 2021

Bengaluru, India

Master of Science in Astrophysics

Grade*: 1.7 (gut/good)

Thesis 🖸

Coursework:

• Gravitational Wave Astrophysics

• General Relativity

• Multi-messenger astronomy

• Computational Astrophysics

• Bayesian Statistics[†]

Statistics[†]

Christ (Deemed to be University)

Bachelor of Science (Physics, Maths and Electronics)

GPA: 3.68/4.0

Final Year Project: Gesture Controlled System based on Raspberry Pi Pico Z Report

RESEARCH EXPERIENCE

Theoretical Astrophysics Group, Universität Potsdam

March 2023 - June 2025 Potsdam, Germany

Master's Thesis
Master's thesis student under Prof. Dr. Tim Dietrich.

• Working on Bayesian techniques for Multi Messenger Astronomy using NMMA 🖸.

- Characterizing the non stationary systematic uncertainties that arise in the modeling of electromagnetic counterparts of multi-messenger source (merged PR)
- Using parallel computing techniques such as MPI and multi-processing to make inferences and analysis faster.
- Resulted in one first author paper published in Physical Review D and one co-authored paper in MNRAS

Universität Potsdam & Astronomical Institute of CAS

Participant

August 2022 - September 2022

Prague, Czech Republic

- Utilized the Perek 2m telescope at the Ondrejov Observatory to acquire stellar spectra
- Performed data reduction and analysis using IRAF Python for data visualization

IUCAA & NCRA-TIFR

December 2020 - January 2021

 $Winter\ Student$

Pune, India

Radio Astronomy Winter School 2020: Learned basics of radio astronomy, from theory to instrumentation and computational aspects. Workshop enabled me to work on few physical experiments and on GMRT and ORT data of Vela pulsar.

☑ Detailed reports can be found here

Krittika, IIT Bombay

 $May\ 2020\ -\ August\ 2020$

Summer Project Intern

Mumbai, India

Developed a Python package to analyse various types of binary star system.

^{*}See here on how to interpret German grade: Welche Form der Benotung wird an der Uni Potsdam verwendet?

[†]University coursework without credits

WORK EXPERIENCE

GFZ Helmholtz Centre for Geosciences

July 2024 - Present Potsdam, Germany

Student Assistant July 2024 - June 2025 July 2025 - Present Research Assistant

Software Developer in the Section 1.5 - Space Physics and Space Weather

• Implemented an ETL pipeline to process real-time data from NASA, JAXA spacecraft websites, including writing new code and developing the testing framework from scratch.

- Deployed and maintaining quasi-real-time space-physics based machine learning model
- Collaborated with team members to ensure seamless implementation and testing of the translated Python-based workflows.
- Migrated ~3,000 lines of legacy code to Python, including data assimilation algorithms from MATLAB and geomagnetic models from FORTRAN.
- Developed software deliverables for the European Space Agency as part of funded research projects.

Leibniz-Institut für Astrophysik Potsdam (AIP)

December 2022 - March 2024

Student Assistant

Potsdam, Germany

Student Assistant in the Project Management team for building (integration, installation and maintenance) the 4-metre Multi-Object Spectroscopic Telescope 4MOST.

- Implemented 4MOST commissioning procedures during 3 week coding campaign (November 2023)
- Utilized technical skills in troubleshooting and problem-solving within the specialized environment of an astronomical integration hall.
- Proactively managed procurement activities, liaising with vendors to procure essential largescale items for the integration hall.

- Malina Desai, Deep Chatterjee, Sahil Jhawar, et al. "Kilonova Light Curve Parameter Estimation Using Likelihood-Free Inference". In: (Aug. 2024). Accepted in MNRAS. arXiv: 2408. 06947 [astro-ph.IM].
- 3. T. Hussenot-Desenonges, T. Wouters, N. Guessoum, et al. Multi-band analyses of the bright GRB 230812B and the associated SN2023pel. 2023. arXiv: 2310.14310 [astro-ph.HE].

OBSERVING EXPERIENCE

Perek 2m Telescope Assisted with 7 nights (Ondrejov, Czech Republic) Assisted with 2 nights (Potsdam, Germany) OST 0.5m Telescope

TECHNICAL PROJECTS

NMMA 🖸

contributor and maintainer

A Pythonic library for probing nuclear physics and cosmology with multimessenger analysis.

nbody 🖸

Direct N-body code with C++ and JAX backends.

Gstrain 🖸

Interactive Gravitational Wave strain viewer using Streamlit & Plotly. Check it out here

BibQuest ©

Automagically fill your bib file just using bib keys

GPInter ©

Gaussian Processes from scratch with interactive visualization.

uptime 9

A Github Action and Pages based uptime monitor in Python.

SKILLS

Technical Languages Python, C\C++, LATEX, MATLAB, SQL

Technical Skills Git (-Lab and -Hub), Unix based OS and Windows,

Bayesian Inference, Data analysis and visualisation

Packages and tools NumPy, SciPy, Pandas, Matplotlib, Astropy, Bilby, Seaborn, Sphinx,

TensorFlow, scikit-learn, JAX, PyTorch, CI\CD, Parallel computing

OUTREACH AND COMMUNITY ENGAGEMENT

Let's Talk Astronomy, Christ

November 2019 - January 2021

Student coordinator

Bengaluru, India

Acted as a liaison between students and faculty. Conducted 15+ talks.

LIGO-India, Vigyan Samagam (DAE-DST-NCSM, G.O.I) September and December 2019
Scientific Communicator Bengaluru and Kolkata, India

Successfully played the role of science communicator by explaining GW Science and GW Exhibits to an audience of all ages. Catered to nearly 500 visitors.

Astronomical Society of India

February 2019

Volunteer

Bengaluru, India

Worked with hospitality committee to cater to all needs of guests and help in the smooth running of the conference during the 37^{th} Annual Meeting of ASI at Christ (Deemed to be University).

PRIZES, AWARDS AND HONORS

- **2024** Fully funded visiting fellowship by European Union's Horizon 2020 Programme under the AHEAD 2020 hosted by Dr. Mattia Bulla at University of Ferrara, Italy
- 2024 Fellowship of €500 by ESA for dotAstronomy 2024, ESAC Madrid, Spain
- 2023 Scholarship of ₹35,000 by Badrilal Soni Maheshwari Shiksha Sahyog Kendra, India
- 2021 Awarded co-curricular activities based scholarship from Christ (Deemed to be University)
- 2021 Won numerous inter and intra collegiate events, and successfully lead a team of players resulting in various rolling trophies for the department
- **2020** Gold honor in International Astronomy and Astrophysics Competition (IAAC), secured 38/40 and placed in the top 1% worldwide
